

Stower Vale Pre-school

MEDICAL CONDITIONS POLICY – SUPPORTING CHILDREN

Stower Vale Pre-school adheres to the duty as stated in the Children and Families Act 2014 that children with medical conditions will have the same right of admission to our school as other children and will not be refused admission or excluded from school on medical grounds. Appropriate levels of assessments will be undertaken to establish and determine what support children with medical conditions require. This will be done in partnership with parents and health professionals.

The prime responsibility for a child's health rests with parents. It is anticipated that parents/carers will ensure that appropriate information is provided for the school that enables proficient management and a good understanding of their child's medical condition; this includes working in partnership in the management of any medicines administered at school.

Stower Vale Pre-school takes advice and guidance from a range of sources, including the School Nurse, Paediatric Consultants, and other Health professionals in addition to the information provided by parents in the first instance. This enables us to manage support effectively and to minimise any disruption to learning.

AIMS

Stower Vale Pre-school is committed to assisting children and young people with long-term or complex medical conditions and working in partnership with their parents/carers.

Our aims are:

1. To ensure that children at Preschool with short or long term medical conditions, are properly supported so that they have full access to education, including off-site activities, residential visits and physical education.
2. To make arrangements for staff to ensure that they receive adequate and appropriate training for them to support children with medical needs.
3. To ensure that parents and children have confidence in the medical support arranged at school.
4. To work in partnership with Health Service colleagues.
5. To be fully compliant with the Equality Act 2010 and its duties.
6. To manage medicines within school in accordance with government and local advice.
7. To keep, maintain and monitor records as detailed in this policy.
8. To write and to monitor Individual Healthcare Plans, in partnership with health professionals.
9. To ensure that the children in our school are safe and are able to attend school regularly with their medical condition.
10. To support children with complex medical conditions and or long term medical needs in partnership with Health professionals and parents to enable their access to education.

11. To adhere to the statutory guidance contained in “Supporting pupils at school with medical conditions” (*DfE – December 2015*), and “Multi-Agency Guidance for the Management of Long Term Health Conditions for Children and Young People” (*DSCB 2011*)¹ as set out and agreed with the school's management committee.

STOWER VALE PRESCHOOL WILL:

- ensure that arrangements are in place to support children and young people with medical conditions and that support is tailored to individual medical needs;
- review this policy annually;
- ensure that staff are identified to implement the policy from day to day;
- monitor the arrangements associated with Individual Healthcare Plans so that they are managed appropriately, reviewed and maintained in partnership with Health professionals;
- ensure that staff receive appropriate training enabling them to provide bespoke and purposeful support to children with medical needs and that the training is refreshed regularly;
- oversee the Pre-school's management of medicines to ensure that Health & Safety standards are met and that parents have confidence in the Pre-schools ability to support their child's medical needs;
- ensure that insurance arrangements cover staff in carrying responsibility for medical procedures;
- have 'due regard' to the rights of children who are disabled as set out in the Equality Act 2010;
- ensure that appropriate arrangements are made to include children with medical conditions on off-site activities;
- ensure that parents/carers are aware of the school's complaints policy.

INDIVIDUAL HEALTHCARE PLANS

Individual Healthcare Plans will be developed for children with medical conditions in accordance with the advice contained in “Supporting pupils at school with medical conditions” (*DfE – December 2015*). Individual Healthcare Plans will set out the support that is needed so that the impact on school attendance, health, social well-being and learning is minimised. Not all conditions will require an Individual Healthcare Plan. In some cases the agreement request to administer medicines will be sufficient to cover short term conditions and treatment. The plan will include the name of the member of staff who is appropriately trained and providing the agreed support.

Stower Vale Pre-school will use the recommended DfE Templates or develop their own versions in line with the advice provided by the DfE to capture relevant information that will enable an appropriate plan to be structured. The Templates cover a range of issues for which governors have responsibility. Health professionals will be involved in the development of Individual Healthcare Plans in addition to parents and children.

The Individual Healthcare Plans will be tailored to meet the needs of short term, long term and/or complex medical conditions. The plans will be kept under review by the designated person and revised as required, or at least annually, to ensure that they reflect current

medical needs (e.g., changes in medication). Individual Healthcare Plans will include details on emergency arrangements and these will be shared with all relevant staff, First Aiders and school office staff as applicable.

Where children have been issued with an Education and Health Care (EHC) Plan by the local authority, any Individual Healthcare Plan will be linked to, or become part of that EHC Plan.

ROLES AND RESPONSIBILITIES

Parents

Parents are asked to provide the school with sufficient and up-to-date information about their child's medical needs and medication using a standard form (DfE - Template B) so that arrangements to manage their short or long term medical conditions can be implemented in partnership.

Parents are asked to deliver medicine to Pre-school if it is not possible for this to be administered outside the school day. Medicine should be provided in the original container(s) ensuring that the medicine is in date and that it has been stored correctly. All medicines must be marked with the following information clearly indicated:

- the child's name on the medicine;
- when the medicine should be given;
- the prescribed dose and pharmacist's instruction, e.g., after meals.

Parents are expected to notify the school immediately (in writing) of any changes or alteration to a prescription or recommended treatment so that adjustment can be made to Individual Healthcare Plans or previous agreement. It is important that the school is aware and informed by parents about other issues or symptoms their child may have experienced over night or before school; this is particularly important for asthma conditions

It must be remembered that the prime responsibility for a child's health rests with parents/carers.

The Manager will ensure the following:

- that Committee are informed about the implementation and effectiveness of this policy;
- that arrangements are made with staff supporting children with medical conditions, and for any medicines required in delivering that support to be stored safely and in line with guidance provided by the local authority;
- suitable arrangements are agreed in partnership and liaison with parents/carers to support the medical needs of children;
- that appropriate training has been provided for staff that enables them to carry out agreed procedures;
- that all staff and parents/carers are aware of this policy and the procedures for dealing with medical needs at Stower Vale Preschool;
- make arrangements through the designated member of staff to manage the following:

- prescription medicines in school;
- prescription medicines on trips and outings, including school transport;
- accurate record keeping when administering medicines;
- the safe storage of medicines;
- procedures for access to medicines during emergency situations;
- adhering to risk management procedures involving medicines;

The Designated Key Person will ensure the following:

- staff work in partnership with parents/carers to ensure the well-being of children and young people;
- that interruption to school attendance for medical reasons will be kept to a minimum;
- staff who have agreed to administer medicines will receive the appropriate training;
- adherence to Individual Healthcare Plans;
- all cultural and religious views, made known to the school in writing, will be respected;

STAFF TRAINING AND SUPPORT

Most medicines to be administered will not require professional training; however the Pre-school will ensure that staff supervising the administering of medicines will understand that accurate records are to be kept and are completed at the time of being administered. Staff who maintain these records should be clear about what action to take, (such as referring to the Designated Senior Person for Child Protection) if they become concerned about the welfare of an individual pupil. If child or young person is provided with an Individual Healthcare Plan, additional training must be given by a nominated Health professional, e.g., use of a nebuliser, using Epipens. Training received or cascaded from parents will not be accepted unless otherwise instructed by a health professional. Record of Training Forms must be completed and maintained (see DfE Template E: staff training record).

(Also see “Multi-Agency Guidance for the Management of Long Term Health Conditions for Children and Young People” (DSCB 2011); section 3.3 and 3.4 including Chart E.)

REASONABLE ADJUSTMENTS

The Pre-school understands it’s duties under the Equality Act 2010 to make reasonable adjustments and enable children and young people to have equitable access to education. Children and young people with complex or significant medical needs will be included in activities for as much as their health permits.

MANAGING MEDICINES ON SCHOOL PREMISES AND ON OFF-SITE ACTIVITIES

We will ensure that:

- Local guidance for paediatric first aid is followed
- records are maintained detailing an accurate history of the administering of medicines
- suitable back-up systems are in place to cover administering of medicines in the event of staff absence;
- if there are any doubts or confusion about arrangements for administering medicines, staff must consult with the parents and the designated member of staff;

- no child or young person under 16 will be given medicines or be permitted to self-medicate without their parents' written request.

STORAGE OF MEDICINES

The school will adhere to the advice contained in "Guidance and Code of Practice - First Aid at Work" and local guidance provided by Dorset Council's Health & Safety Team and the local authority's Physical and Medical Needs Service.

REFUSAL OR TOO UNWELL TO TAKE MEDICINES

If a child refuses to take medicine as prescribed and as requested by parents, the records (DfE Template C or D or appropriate equivalent) must state 'REFUSED' clearly and the parents/carer informed immediately. Children/young people will not be forced to receive medicine if they do not wish to do so.

If a child or young person is ill/injured and therefore unable to receive the agreed prescribed medication, the person designated to supervise the taking of medicine will consult with parents/carers immediately. If the child vomits or has diarrhoea soon after receiving medication, parents must be contacted so that they can seek further medical advice.

OFF-SITE ACTIVITIES/PRE-SCHOOL TRIPS

All arrangements for medicines, including the storage of medicines, Individual Healthcare Plans, and Risk Management programmes will apply for all off-site activities or school trips. A member of staff will be designated to ensure there are suitable off-site arrangements for storage, and recording of the medicines when assessing any risks associated for the trip, particularly for those children and young people with long term or complex health conditions. All plans and risk assessments will be discussed with parents/carers in preparation for the activity in advance of the departure day and agreed with the Manager.

All off-site activities will be evaluated in terms of proximity and accessibility to emergency services and any implications for those with short or long term medical conditions before receiving approval to go ahead from the Manager/Playleader.

EMERGENCY PROCEDURES

Care is taken to ensure that all children are safe. All staff at Stower Vale Pre-school have attended 'Paediatric First Aid' training, renewed every three years.

Children with life threatening medical conditions or that require close monitoring/supervision may have Individual Healthcare Plans developed by school staff and Health professionals that provide contact details for emergency situations, e.g., anaphylaxis, diabetes, or epilepsy.

All cases deemed 'complex' or 'serious' medical conditions have emergency contact details held the Preschool register.

BEST PRACTICE

Stower Vale Preschool will endeavour to eliminate unacceptable situations by promoting best practice in supporting children with medical conditions. In doing so we will:

- ensure that children have access to the medicine they need as arranged with parents;
- where necessary, manage each medical condition through an Individual Healthcare Plan;
- listen to the views of children and their parents and take advice from medical professionals in planning the support needed;
- ensure that children with medical conditions are supervised appropriately and not left alone when ill;
- support access to the full curriculum or as much as medical consultants recommend;
- work in partnership with health services to ensure swift recovery or access to treatment;
- facilitate opportunities to manage medical conditions with dignity;
- manage medical needs such that parents are not required to support their child in school;
- include all children in school on and off-site activities, meeting their medical needs in the best way possible.

COMPLAINTS

Stower Vale Pre-school holds a Complaints Policy details of which can be found on the website or in the Operational Plan. Should any complaint be received in respect of the support provided for individual medical conditions, it will be dealt with in accordance with the Complaints Policy.

EQUALITY STATEMENT

Stower Vale Pre-school is mindful of its Equality Duties; respecting religious belief and ensuring that support is provided for those with disability needs that might be affected by this policy. Where there are language or communication issues, and to avoid any misunderstanding, the parents/carers and Headteacher will agree an appropriate course of action. The nominated member of staff will engage interpreters or signers when required to ensure that full understanding of a child's medical needs are determined accurately.

With regard to off-site visits and residential opportunities, Stower Vale Pre-school will ensure that reasonable adjustments enabling children to be included are appropriate and made in consultation with parents/carers.
